## Installation Steps / Pasos para la instalación / Étapes de l'installation

VG02021

Installation must be done by a qualified licensed plumber.  
La instalación debe ser realizada por un plomero autorizado cualificado.  
L'installation doit être effectuée par un plombier qualifié autorisé.

1.1

### STEP 1.1 / PASO 1.1 / ÉTAPE 1.1

#### 1.1 ) Preparation

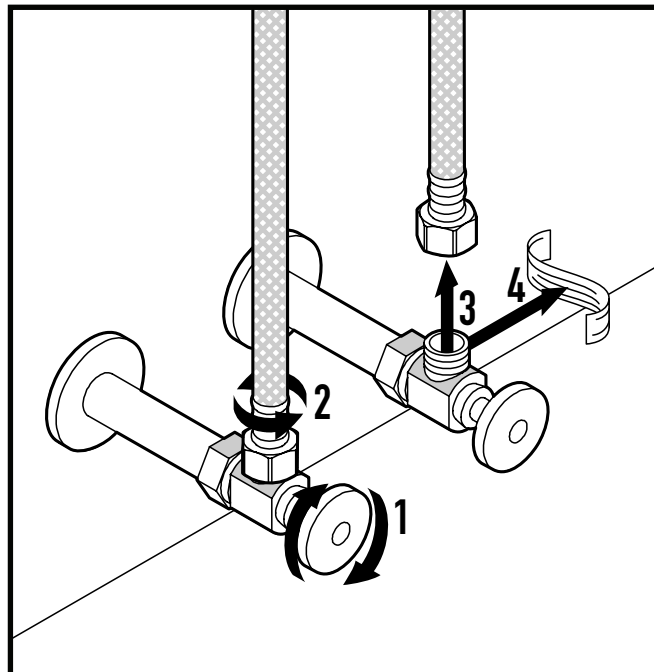

- 1.1.1 Turn off hot and cold water lines
- 1.1.2 Unscrew hoses
- 1.1.3 Remove the hoses
- 1.1.4 Remove old tape from hot and cold threads

#### 1.1 ) Preparación

- 1.1.1 Apague las tuberías de agua fría y caliente.
- 1.1.2 Desenrosque las mangueras
- 1.1.3 Retire las mangueras
- 1.1.4 Retire la cinta vieja de los hilos fríos y calientes

#### 1.1 ) Préparation

- 1.1.1 Fermez les conduites d'eau chaude et froide
- 1.1.2 Dévisser les tuyaux
- 1.1.3 Enlever les tuyaux
- 1.1.4 Enlevez le vieux ruban des fils chauds et froids

1.2

### STEP 1.2 / PASO 1.2 / ÉTAPE 1.2

#### 1.2 ) Cold and hot hose installation to the faucet

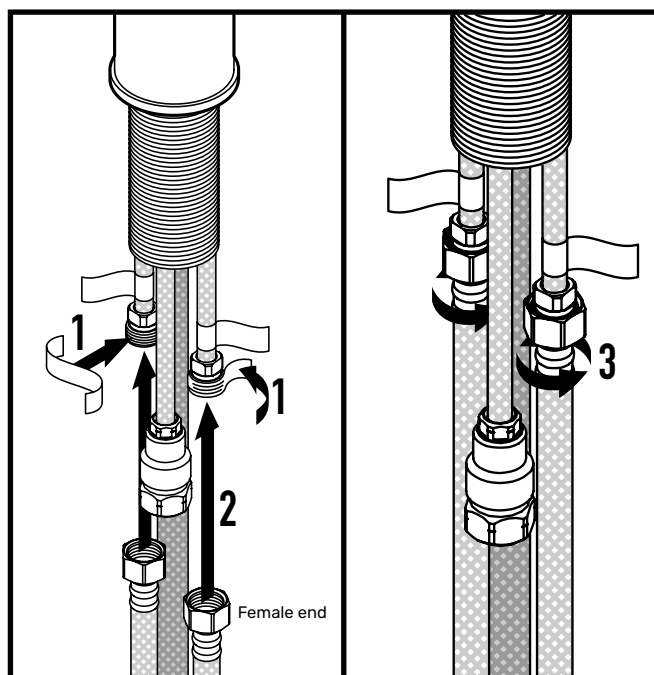

- 1.2.1 Wrap plumbers tape onto cold and hot pipe threads
- 1.2.2 Place the hoses
- 1.2.3 Screw on hoses to cold and hot pipe threads

#### 1.2 ) Preparación

- 1.2.1 Wrap plumbers tape onto cold and hot pipe threads
- 1.2.2 Place the hoses
- 1.2.3 Screw on hoses to cold and hot pipe threads

#### 1.2 ) Préparation

- 1.2.1 Wrap plumbers tape onto cold and hot pipe threads
- 1.2.2 Place the hoses
- 1.2.3 Screw on hoses to cold and hot pipe threads

### 1.3

#### STEP 1.3 / PASO 1.3 / ÉTAPE 1.3

##### 1.3 ) Faucet placement

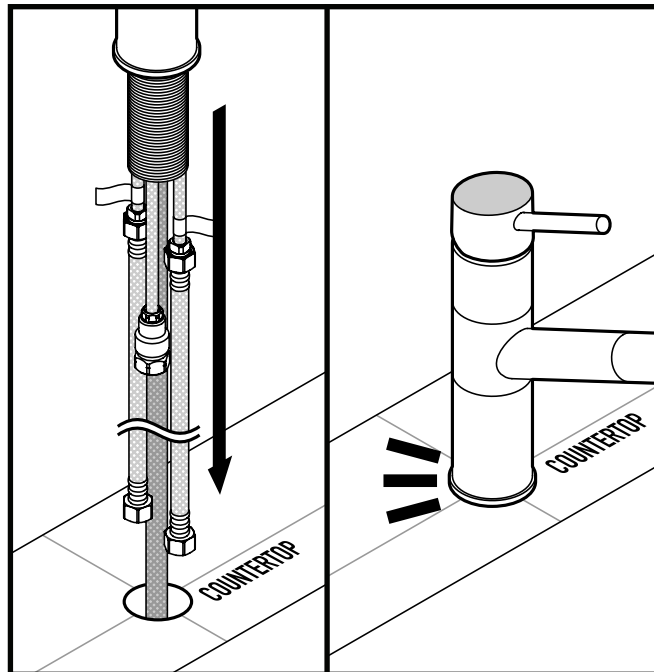

- 1.3.1 Place faucet into hole of countertop
- 1.3.2 Set faucet in place on countertop with handle to right side

##### 1.3 ) Faucet placement

- 1.3.1 Place faucet into hole of countertop
- 1.3.2 Place toward a countertop surface

##### 1.3 ) Faucet placement

- 1.3.1 Place faucet into hole of countertop
- 1.3.2 Place toward a countertop surface

### 1.4

#### STEP 1.4 / PASO 1.4 / ÉTAPE 1.4

##### 1.4 ) Securing the faucet

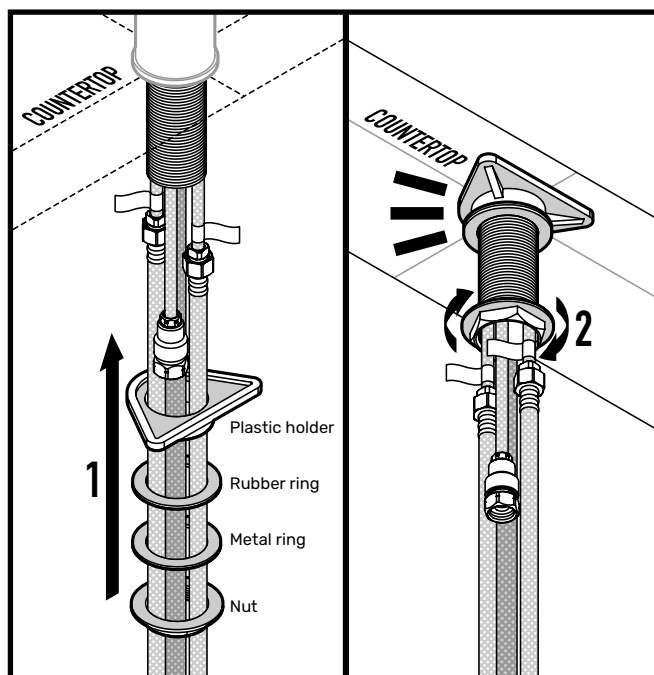

- 1.4.1 Place plastic holder, rubber ring, metal ring and brass nut onto large threaded pin at the bottom of the faucet
- 1.4.2 Secure the faucet by tightening the brass nut

##### 1.4 ) Securing the faucet

- 1.4.1 Place plastic holder, rubber ring, metal ring and brass nut onto large threaded pin at the bottom of the faucet
- 1.4.2 Secure the faucet by tightening the brass nut

##### 1.4 ) Securing the faucet

- 1.4.1 Place plastic holder, rubber ring, metal ring and brass nut onto large threaded pin at the bottom of the faucet
- 1.4.2 Secure the faucet by tightening the brass nut

1.5

### STEP 1.5 / PASO 1.5 / ÉTAPE 1.5

#### 1.5 ) Installing spray hose

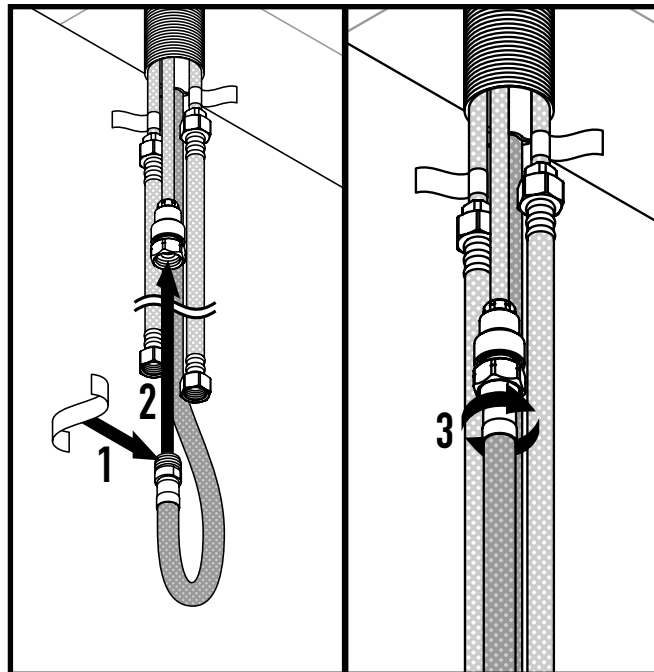

- 1.5.1 Wrap tape on sprayer hose threads
- 1.5.2 Place the spray hose
- 1.5.3 Screw spray hose into sprayer pipe

#### 1.5 ) Installing spray hose

- 1.3.1 Place faucet into hole of countertop
- 1.3.2 Place toward a countertop surface

#### 1.5 ) Installing spray hose

- 1.3.1 Place faucet into hole of countertop
- 1.3.2 Place toward a countertop surface

Depending on the configuration of your faucet hose/clip setup, you may use either 1.6 Option A or 1.6 Option B

1.6

### STEP 1.6 / PASO 1.6 / ÉTAPE 1.6

#### OPTION A

#### 1.6A ) Counterweight installation - Clipping

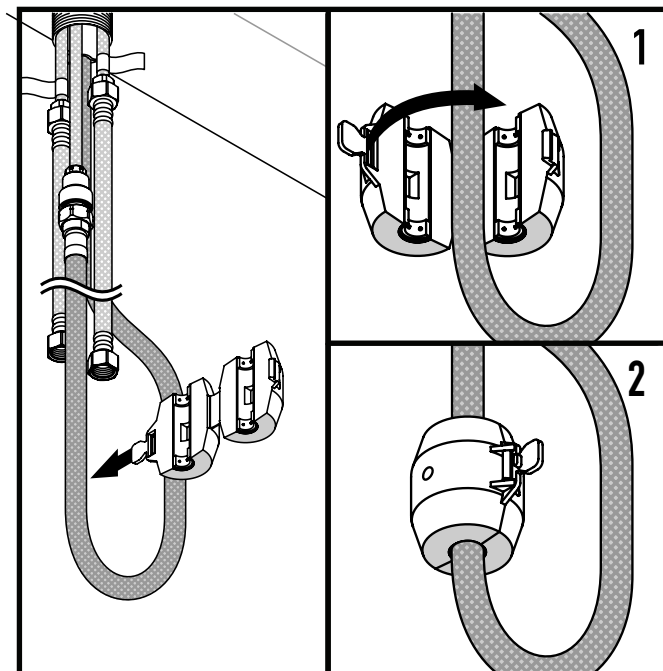

- 1.6A.1 Place the counterweight on the spray hose
- 1.6A.2 Clip and lock the counterweight onto the spray hose

#### 1.6A ) Counterweight installation - Clipping

- 1.6A.1 Place the counterweight on the spray hose
- 1.6A.2 Clip and lock the counterweight onto the spray hose

#### 1.6A ) Counterweight installation - Clipping

- 1.6A.1 Place the counterweight on the spray hose
- 1.6A.2 Clip and lock the counterweight onto the spray hose

1.6

### STEP 1.6 / PASO 1.6 / ÉTAPE 1.6

#### OPTION B

#### 1.6B ) Counterweight installation - Screwing

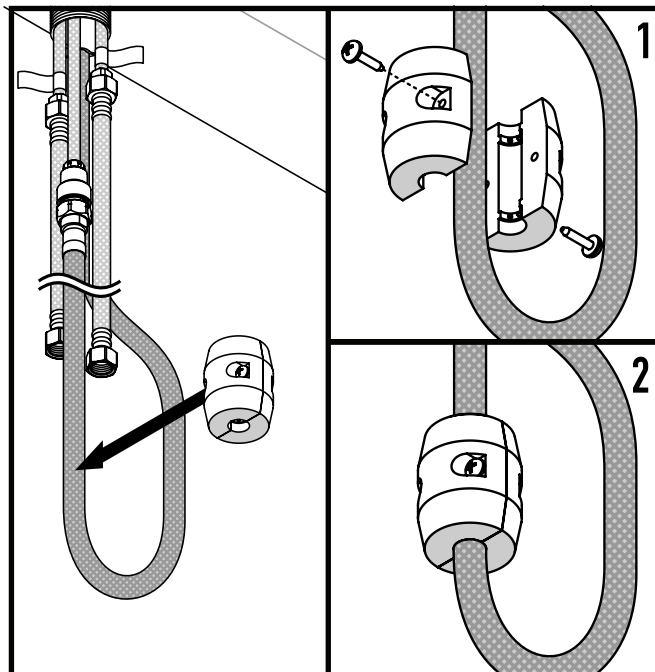

- 1.6B.1 Unscrew all screws from the counterweight and separate before installation
- 1.6B.2 Place the counterweight on the spray hose
- 1.6B.3 Fasten screws into the counterweight

#### 1.6B ) Counterweight installation - Screwing

- 1.6B.1 Unscrew all screws from the counterweight and separate before installation
- 1.6B.2 Place the counterweight on the spray hose
- 1.6B.3 Fasten screws into the counterweight

#### 1.6B ) Counterweight installation - Screwing

- 1.6B.1 Unscrew all screws from the counterweight and separate before installation
- 1.6B.2 Place the counterweight on the spray hose
- 1.6B.3 Fasten screws into the counterweight

1.7

### STEP 1.7 / PASO 1.7 / ÉTAPE 1.7

#### 1.7 ) Open the water lines

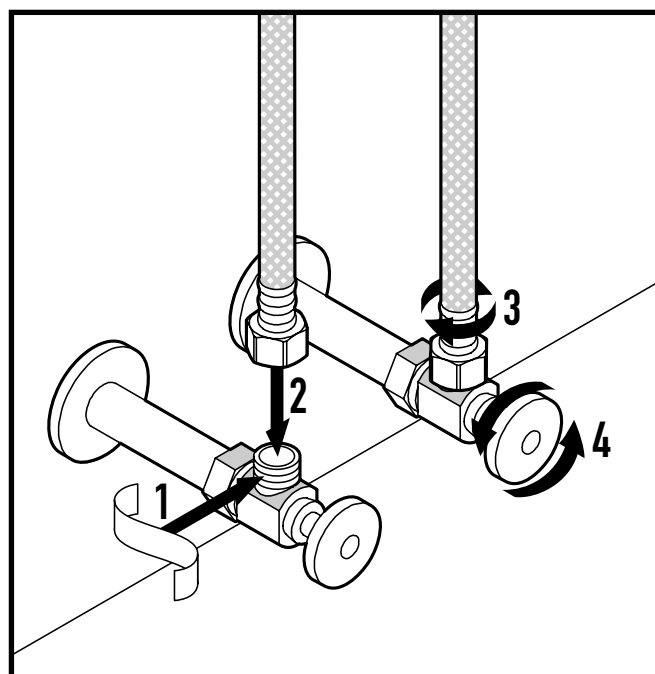

- 1.7.1 Wrap tape on cold and hot pipe threads
- 1.7.2 Place the hose
- 1.7.3 Screw the hoses onto cold and hot threads
- 1.7.4 Open cold and hot water lines

#### 1.7 ) Open the water lines

- 1.7.1 Wrap tape on cold and hot pipe threads
- 1.7.2 Place the hose
- 1.7.3 Screw the hoses onto cold and hot threads
- 1.7.4 Open cold and hot water lines

#### 1.7 ) Open the water lines

- 1.7.1 Wrap tape on cold and hot pipe threads
- 1.7.2 Place the hose
- 1.7.3 Screw the hoses onto cold and hot threads
- 1.7.4 Open cold and hot water lines

## Troubleshooting / Solución de problemas / Dépannage

VG02021

| #2 Insufficient flow rate / Caudal insuficiente / Débit insuffisant                           | 2 - Clog in supply hose line / Atasco en la manguera ínea de suministro / Bouchon dans la conduite d'alimentation                                      | 2 - Remove supply lines and flush lines.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| #3 Leak at connection points / Fuga en los puntos de conexión / Fuite aux points de connexion | 3A - Flexible hose leaking at connection point / Manguera flexible con fuga en el punto de conexión / Tuyau flexible qui fuit au point de raccordement | 3A - Tighten hoses. If this does not resolve the issue, remove the flexible hose and rethread, checking to make sure the connection is secure. Make sure to use pipe tape. / Apriete las mangueras. Si esto no resuelve el problema, retire la manguera flexible y vuelva a enhebrar, verificando que la conexión sea segura. Asegúrese de usar cinta para tubos. / Serrer les tuyaux. Si cela ne résout pas le problème, retirez le tuyau flexible et renfilez-le en vérifiant que la connexion est sécurisée. Assurez-vous d'utiliser du ruban adhésif.                                                                                                                                                                                                                           |
|                                                                                               | 3B - Washer defective / Lavadora defectuosa / Laveuse défectueuse                                                                                      | 3B - Remove supply line and check the status of the washer. If torn, washer must be replaced for a secure, non-leaking connection. / Retire la línea de suministro y verifique el estado de la lavadora. Si se rasga, la lavadora debe reemplazarse para una conexión segura y sin fugas. / Retirez la ligne d'alimentation et vérifiez l'état de la laveuse. Si elle est déchirée, la rondelle doit être remplacée pour une connexion sécurisée et sans fuite.                                                                                                                                                                                                                                                                                                                     |
| #4 Leak at connection points / Fuga en los puntos de conexión / Fuite aux points de connexion | 4 - Mounting hardware became loose / Accesorios de montaje se soltó / Le matériel de montage est devenu lâche                                          | 4 - From under the counter, use an adjustable wrench and tighten the mounting hardware. Make sure the faucet is perpendicular to the counter. / Desde debajo del mostrador, use una llave ajustable y apriete el hardware de montaje. Asegúrese de que el grifo esté perpendicular al mostrador. / Sous le comptoir, utilisez une clé à molette et serrez le matériel de montage. Assurez-vous que le robinet est perpendiculaire au comptoir.                                                                                                                                                                                                                                                                                                                                      |
| #5 Loose handle / Mango flojo / Poignée lâche                                                 | 5 - Set screw has become loose / El tornillo de fijación se ha soltado / La vis de fixation est devenue desserrée                                      | 5 - Take off hot/cold cover on handle. This will give you access to the screw that connects the handle to the cartridge. Using either an allen key or a flat head screw driver, tighten the screw so handle has firm connection to cartridge. / Retire la cubierta fría / caliente del mango. Esto le dará acceso al tornillo que conecta el mango al cartucho. Usando una llave Allen o un destornillador de cabeza plana, apriete el tornillo para que el mango tenga una conexión firme al cartucho. / Enlevez la couverture chaude / froide sur la poignée. Cela vous donnera accès à la vis qui relie la poignée à la cartouche. À l'aide d'une clé Allen ou d'un tournevis à tête plate, serrez la vis de manière à ce que la poignée ait une connexion ferme à la cartouche. |

### SAFETY TIPS / CONSEJOS DE SEGURIDAD / CONSEILS DE SÉCURITÉ

Installation must be done by a qualified licensed plumber. Prior to installation please read the instructions thoroughly, confirm that all parts are included and visually inspect the unit for any defects. If you have any questions please contact the VIGO Technical Support Department before proceeding with installation.

If you use soldering for the installation of the faucet, the seats, cartridges and washers will have to be removed before using flame. Damage caused by improper soldering will void the warranty. Protect your eyes with safety glasses when cutting or soldering water supply lines.

La instalación debe ser realizada por un plomero calificado y con licencia. Antes de la instalación, lea atentamente las instrucciones, confirme que todas las piezas estén incluidas e inspeccione visualmente la unidad para detectar cualquier defecto. Si tiene alguna pregunta, comuníquese con el Departamento de Soporte Técnico de VIGO antes de proceder con la instalación.

Si usa soldadura para la instalación del grifo, los asientos, cartuchos y arandelas deberán retirarse antes de usar la llama. Los daños causados por una soldadura inadecuada anularán la garantía. Proteja sus ojos con anteojos de seguridad cuando corte o suelde líneas de suministro de agua.

L'installation doit être effectuée par un plombier qualifié agréé. Avant l'installation, veuillez lire attentivement les instructions, confirmer que toutes les pièces sont incluses et inspecter visuellement l'unité pour détecter d'éventuels défauts. Si vous avez des questions, veuillez contacter le service d'assistance technique de VIGO avant de procéder à l'installation.

Si vous utilisez la soudure pour l'installation du robinet, les sièges, les cartouches et les rondelles devront être enlevés avant d'utiliser la flamme. Les dommages causés par une soudure incorrecte annuleront la garantie. Protégez vos yeux avec des lunettes de sécurité lorsque vous coupez ou soudez des conduites d'alimentation en eau.

 **WARNING**

This product can expose you to chemicals including Lead and Lead Compounds, which are known to the State of California to cause cancer, birth defects or other reproductive harm.
